Drawings

1. This application lacks formal drawings. The informal drawings filed in this application are acceptable for examination purposes. Applicant is required to submit new formal drawings. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Applicant's argument that Ochi teaches away from crushable particles, and Ochi also teaches away from particle sizes equivalent to Keely's, i.e., the diameter of particles is substantially about equal or greater than the thickness of the adhesive layer, is persuasive. In particular, Applicant's amendment to claim 18 by incorporating claims 21 and 29 overcome the prior rejections over Keely and Ochi.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
